

## **Supremasea Shea Body Butter Now Available in the UK**

*Supremasea Shea Body Butter is now available in the UK market*

July 29, 2017 (FPRC) -- One of Supremasea's most popular products, the Shea Body Butter, is now available in the UK market. This comes at a time when the company is looking to increase its global market presence. Over the last few months, Supremasea has introduced its formulations in the Italy, France and the UK. The move to launch in the UK makes 4 the total number of European countries where the firm is present. Apparently, Supremasea is looking to establish itself as the go-to provider of skincare products in the market.

Supremasea is an emerging firm that's owned by Thermalabs, one of the world's leading cosmetics manufacturers. Thermalabs is based in New York City but operates a number of production centers in other parts of the world. Although Thermalabs is widely known for its production of natural and organic self-tanners, the company has in recent times expanded its product range to cover the beach accessories market, as well as the organic healthcare space. In addition to the Supremasea sub-brand, Thermalabs also owns Organic Healthcare, Tent World, and Thermalabs Air. Organic Healthcare is the firm's division in charge of producing health products based on 100% bio-organic ingredients. Thermalabs Air is a semi-autonomous brand that produces airbrushing machines and airbrushing accessories, where Tent World is the firm's branch in charge of beach and outdoor tents.

Over the 2 years that Supremasea has been on the market, the firm has released a total of 4 products, namely Tan Enhancer, Lavender body scrub, Vanilla Patchouli body scrub, and Shea Body Butter. Tan Enhancer is a skin care lotion that's designed to maintain that radiant glow after a tan. Both the Vanilla Patchouli and Lavender body scrub are exfoliation lotions that are lead to a smooth and youthful looking skin. Each of these products has Dead Sea mineral salts as one of its key ingredients.

The Shea Body Butter, Supremasea's latest product, is a triple-moisture lotion that has healing properties. Created from a special blend of Shea Butter, Dead Sea salts, Sweet Almond Oils, Avocado Oils, and Coconut Oil. According to Supremasea, this particular skin care product is recommended for individuals who have dry skin, wrinkles, or those who suffer from common skincare ailments. The product works for all skin types and leads to a beautiful and youthful-looking skin.

Kristina Meyers, Supremasea's brand manager, said, "We are glad to announce that one of our most popular products, the Shea Body Butter, is now available in the UK market. This is one of our most exclusive formulations, with healing properties that make it a must have for anyone suffering from dry skin, wrinkles, acne, and other common skin problems. Our UK customers can now obtain this product online via Amazon.co.uk. Stay tuned to Supremasea for more..."
