Ehud Segev is a best-selling author of two books, world renowned entertainer, and one of the best-ranked mentalists every. Ehud Segev was born in Israel and developed an interest in the supernatural at a very young age. By the time he was a teenager, Ehud could already bend spoons with his mind, as well as send credit cards flying like kites into the air. At one time, Mr. Segev secured an exclusive contract with the U.S Department of Homeland Security. His job was to entertain American soldiers in far away bases, a job he did so well that he earned an EB-1 classification. While most of Ehud's fans refer to his abilities as magic, Mr. Segev has been quick to point that he only specializes in the innate powers of the human mind.

Ehud Segev has appeared on dozens of Israeli and international TV shows, and performed in front of thousands of guests in almost every major city around the world. At one time, he appeared on NBC's hit show, the Phenomenon. Mr. Segev also educates corporate leaders and employees on special skills related to communication skills, body language, and more.

Secrets of the Voice is an exclusive book that focuses on the power of the voice in the context of interpersonal communication. Mr. Ehud depicts the voice as a double-edged sword. On one side, people can read the cues of the voice to better understand others, and decode their deep feelings and attitudes. On the other edge, public speakers can use their voice more effectively to exert influence and drive the message home. The book focuses on how various elements of the voice, from tonal variation to speed of speech, can be used as powerful tools of communication.

Hannah Tiram, a spokesperson at Ehud's Mentalizer Education, has said that the new audio format of this bestselling book will be available to users online via audible.com. Ms. Tiram has said that the audiobook is currently going at a special, promotional rate.
