

Tent World Introduces Its Jupiter Tent in France

Tent World's Jupiter beach tent is now available in France

August 26, 2017 (FPRC) -- Tent World has introduced one of its most popular products, the Jupiter beach and outdoor tent, in the French market. This comes at a time when the company is looking to establish itself as the number one provider of outdoor tents in the entire market. Over the last few weeks, Tent World has introduced a section of its popular products, including the Pluto lineup of tents, in European markets such as the UK, Spain, Italy, Germany, and France.

Tent World is an emerging provider of beach and outdoor tents. Established back in 2015, the firm started out with an introductory beach tent known as Mercury. This was a special-feature tent that had a protective coating to keep away the sun's harmful radiation. It also had an extra comfortable bottom for kids, side pockets that could be filled with sand, and an instant pop-up assembly. The tent was a big success in the market, a factor that critics have argued motivated the young company to produce more, similar products.

Tent World has thus far furnished the market with an extensive range spanning over 12 different tents. Each of these is named after a planet in the solar system, in accordance to its size. The largest tent in the line-up is named the Sun (since the sun is the largest body in the entire solar system). On the other end of the size spectrum, the smallest tent is named Pluto. While the sun tents are large enough to accommodate a sizeable group of up to 12 people, Pluto tents are so small that they can only be used by kids and toddlers. Other tents by the company include Venus, Saturn, Mars, Jupiter, Uranus, and Neptune.

Tent World's Jupiter is a large, spacious and ventilated tent that can accommodate a group of friends or beach-going friends. The tent is designed in such a way that it doesn't obscure the occupants' view, while at the same time protecting from the sun, and the rain. The Jupiter tent by Tent World features an open design on all sides, and comes available in a beautiful blue color. According to Tent World, this particular tent can be used at the beach, as well as any other outdoor location such as a camping spot, private garden, picnic site, and more. The tent features an instant popup assembly for ease of use, and ships with a free carry bag.

Ann Spencer, Tent World brand manager, has said that customers in France can now obtain this product online via Amazon.fr.
