

New Lavender Body Scrub Exfoliator from Supremasea Launches in France

Supremasea's Lavender exfoliator is now available in the French market

September 27, 2017 (FPRC) -- The Lavender body scrub exfoliator by Supremasea is now available in the French market. This is a natural, premium-quality exfoliation product that can be used on all skin types. This is the second product this month that the firm has launched in France, as it seeks to establish itself as the go-to provider of top quality cosmetics products in the region. Over the past 12 months, the New York company has been working hard to curve a market presence in the European region. Already, some of the brand's most popular products are available in the UK, Germany, and Italy.

Supremasea is a sub-brand of Thermalabs, one of the world's leading manufacturers of self-tanners and cosmetics products. The firm was launched back in 2014 and has made significant progress to establish a market foothold. Supremasea creates skincare products using micro granules of mineral salts extracted from the Dead Sea. According to scientists, the Dead Sea is home to over 40,000 different types of salts, at least 12 of which are unique to this body of water. Dead Sea mineral salts are known to have multiple benefits not just for the skin but also other organs in the body.

When it launched three years ago, Supremasea started with a pilot lotion known as Tan Enhancer. This product was primarily built to maintain that radiant glow after a tan. It also was enriched with Vitamin E and Vitamin K, and protected the skin from free radicals and other environmental pollutants. According to Supremasea, Tan Enhancer also doubles up as a skin-nurturing moisturizer.

In addition to Tan Enhancer, other releases by Supremasea are Shea Body Butter, the Vanilla Patchouli exfoliator, and finally the Lavender exfoliator. Shea Body Butter is a skin-nurturing cream that has healing properties and is thus recommended for individuals who suffer from common skin ailments. On the other hand, the Vanilla Patchouli exfoliator is a body scrub product that is formulated from a special blend of Vanilla Oil, Patchouli Oil, and Dead Sea mineral salts.

The Lavender exfoliator is a natural body scrub product that is created from Lavender Oil, and micro granules of Dead Sea salts. This particular exfoliator also contains Sweet Almond Oils, Wheat Germ Oils, and Calendula Oils. Combined, these ingredients offer massive benefits for the skin. According to Supremasea's brand manager, Ms. Kristina Meyers, the Lavender exfoliator contributes to a youthful-looking and healthier skin.

Ms. Meyers has said that users in France can now obtain this product online via Amazon.fr.
