Mentalizer Education today launched educational illustrations on its Facebook page

September 29, 2017 (FPRC) -- Mentalizer Education has said that from today on, it'll publish educational illustrations on its official page. These illustrations, the organization says, will be related to psychology, life tips, and the best of mentalism from Ehud Segev. This is an interesting move for the organization's fans around the world, who'll now be able to learn more about mentalism and other interesting stuff visually. Mentalizer Education's Facebook page currently has nearly 100,000 fans, and it has said that it's looking to triple this number over the next few months.

Mentalizer Education is a leading publisher of content related to mentalism. The organization has published two bestselling books, namely 'Secrets of the Voice', and the '9 Steps to Influence'. Both books were authored by renowned mentalist Ehud Segev, and educate users on how they can leverage mentalism to enhance their lives. The first book, Secrets of the Voice, explores the voice as a powerful tool to exert influence and subconsciously learn more about the people you interact with. 9 Steps to Influence, on the other hand, is a crash course into mentalism. The book explores mentalism in a nutshell and elaborates how people can use it to be more influential in society.

Mentalizer Education is owned by Ehud Segev, one of the world's leading mentalists. Earlier this year, BestMentalist.com listed Ehud Segev among the top three mentalists around the world. Mr. Segev was born in the Israeli city of Safed back in 1979. Growing up there, he spent a lot of time reading books on mind reading, mysticism, and other cryptic subjects. By the time he was a teenager, Ehud was already a national sensation in Israeli. He could do, among many other things, bend spoons with his mind, send credit cards with his mind, and correctly predict political outcomes. Since then, Mr. Segev has traveled the world. He has entertained guests on almost every major city and spearheaded major corporate training programs on leadership.

According to Hannah Tiram, a brand spokeswoman at Mentalizer Education, the new illustrations will be based on images, animations, or video content. Ms. Tiram has said that her organization is looking for an easier way to share interesting facts and educational materials with its ever-growing global audience.

"We are happy to announce that moving forward, we'll launch micro-courses on mentalism, mind reading, and other interesting subjects via our official Facebook page. Our goal is to promote knowledge in this area, as well as keep our fans thrilled and engaged. Keep it Mentalizer and stay tuned to mentalizer.com for more..." said Ms. Tiram.
