

Mars Beach Tent Launches in the UK

Tent World's Mars beach tent is now available in the UK

September 29, 2017 (FPRC) -- The Mars - by Tent World is now available in the UK market. This is a premium quality tent that offers protection from the sun's harmful UV radiation, and that can be used by family members as they relax on the beach. This is about the sixth tent that the firm has launched in the UK over the last one year. Apparently, the company is looking to establish itself as the go-to distributor of top quality outdoor tents in the European region. Although Tent World is widely known in the US, the company is trying to expand market borders by introducing some of its best products in the UK, Italy, France, Germany, and other European markets.

Tent World is a major distributor of outdoor shelters. The firm first opened its doors two years ago, starting with a pilot beach tent that was referred to as the 'Mercury Instant Popup Tent'. This particular release featured an extra protective layer to shield occupants from the sun's harmful UV radiation and side pockets that could be filled with sand to increase the tent's stability. More so, it also had a padded bottom that was highly comfortable for kids, and an instant popup assembly that made it super easy to open up or close down. The immense success that this product earned in the market has helped Tent World establish itself as a force to reckon with in the outdoor tents market.

Tent World has thus far furnished the market with an expansive range spanning over 12 different tents. Each of these is named after a planet in the solar system, in accordance with its size. The largest tent in the company's lineup is referred to as the Sun, while the smallest one is known as Pluto. The Sun tent is indeed so large that it can shelter a large group of up to 12 people. On the contrary, the Pluto tent is so small that it can only accommodate small kids or toddlers.

The Mars beach tent is an all-purpose outdoor shelter that can be used in the park, the garden, the front yard, the backyard, and just about anywhere else. The tent provides SPF 30 protection from the sun's UV radiation. It is perfect for children to set up castles and play games either at the beach or in the park or garden. It ships with a free carry bag and comes with the company's money-back guarantee.

Ann Spencer, the brand manager at Tent World, has said that the firm's customers in the UK can obtain this product online via Amazon.co.uk.
