

## **Mentalizer Education Launches Toll-Free Fans Website**

*Mentalizer Education today launched mentalizer.org, a toll-free fans website*

September 29, 2017 (FPRC) -- Mentalizer Education today introduced a toll-free website where fans and event organizers can make arrangements to work with Mentalist Ehud Segev. The new website, Mentalizer.org, will also provide information on Ehud Segev's work around the world, as well as publish materials related to the art and practice of mentalism. The firm has said that at the current time, the platform is already live and that fans can already interact with team members.

Mentalizer Education is an educational establishment that is owned and run by Ehud Segev, one of the world's leading mentalists. Mentalizer Education is a leading publisher of books related to mentalism, mind reading, and body language. The organization runs an education platform where users can get free training on how to master the art of mentalism and leverage it in their everyday lives. Mentalizer Education is also the organization behind Ponzey.com, a popular publisher of children's books. Ponzey.com uses illustrations to create easy to digest books that are meant to instill positive morals in kids.

Ehud Segev was earlier this year ranked among the top three mentalists in the world by bestmentalist.com. Mr. Segev was born in the Israeli city of Safed back in 1979. While growing up in Upper Galilee, Ehud would spend a lot of his time at the local library – reading books on mysticism, body language, mind reading, and other cryptic subjects. At the age of 16, Ehud's unique talents were already well manifested. By the time he was 19 years old, he managed to correctly predict the winner in a mayor's election involving 12 candidates. Ehud Segev psychoanalyzed the candidates by simply studying their face photos, almost instantly propelling to national fame. Since then, he has traveled the world and entertained guests on almost every major city. Mr. Segev has also appeared on numerous prime-time TV shows, and attended interviews with some of the largest broadcasters of our time. On his part-time, Ehud educates corporate employees on important skills such as body language and effective communication.

The new toll-free website, mentalizer.org, provides basic information on how people can get started into mentalism. It also offers a contact us page and a toll-free number where individuals can instantly get in touch with team members at Ehud's New York office.

Hannah Tiram, a brand spokeswoman at Mentalizer Education, has said that the organization is looking to cultivate positive brand engagement as they work on launching new educative programs. Ms. Tiram has said that her organization is committed to providing constructive knowledge on mentalism and other related subjects.
