

## **Green Pluto Kids Tent Hits the German Market**

*The Pluto Park Green tent by Tent World is now available in the German market*

October 5, 2017 (FPRC) -- Tent World has said that it introduced one of its latest products, the Pluto Green beach and outdoor tent for children, in the German market. This comes barely months after the firm launched a number of its best performing outdoor shelters in the European market. Apparently, the firm is looking to establish itself as the go-to provider of beach tents and outdoor shelters around the world. The company's products are currently available in the UK, France, Italy, and a growing number of European markets.

Tent World is one of the fastest growing makers of beach and outdoor tents. The firm first opened its doors in 2015 when it launched its Mercury instant popup tent. This was a medium-sized outdoor tent that featured an extra coating to keep its occupants shielded from both UVA and UVB rays from the sun. Scientists have reiterated that these rays emitted by the sun are a leading cause of skin cancer. The tent also featured an extra comfortable bottom that was friendly to kids and side pockets that could be filled with sand for extra stability. Other features that stood out included an instant popup assembly that meant the tent could be set up within a matter of seconds.

Currently, Tent World has furnished the market with a comprehensive range spanning over 12 different outdoor tents. All of these are named after planets in the solar system, in accordance with their relative size. The largest tent in the firm's inventory is referred to as 'The Sun'. This is a massive outdoor tent that can accommodate a group of up to 12 people. The tent features an open-canopy design and is popular with consumers who are planning an outdoor event. On the opposite end of the size spectrum is Pluto, Tent World's smallest release. This tent is indeed so small that it can only accommodate kids and toddlers. Pluto tents are equipped with children's coloring books and other amenities meant to make kids more comfortable.

The Pluto Green tent that has launched in the German market features UV protection, children coloring books, a free carry bag, and an instant popup assembly for ease of use. According to Tent World, the tent is ideal for parents who are looking to take their kids to the beach, or any other outdoor location such as the park, camping spot, picnic site, and private garden.

Ann Spencer, the brand manager at Tent World, has said that customers in Germany can now obtain this product online via Amazon.de.
