

Casart Coverings Introduces new Wave Mural Design to Sea Life Removable Wallpaper Collection

Our reusable Wave wallcovering design creates instant tranquility to an interior space and helps clean up Oceans!

September 4, 2019 (FPRC) -- Casart Coverings LLC (Casart Coverings) announces the release of the new Wave designs in their Sea Life series of removable wall-covering designs, as a part of their Mural Collections for the summer into fall 2019 season.

The Sea Life Series celebrates marine life and ocean waves with four designs that have a maximalist and intricate appeal. For a limited time, for each \$200 wallcovering Sea Life design purchase, we purchase a \$20 recycled sea glass bracelet from 4Ocean company to send to our customers. This effort from the purchase of 1 bracelet represents one pound of trash pulled from oceans.

There are two new Wave Murals that are abstract printed paintings that simulate the ocean's tide. Similar to our Sea Spray Mural, our Wave Murals show undulating movement of water with a balanced mix of warm and cool, vibrant colors. All our abstract murals within the Casart Sea Life Series are meant to remind one of water, an essential ingredient to all life.

Casart Wave designs were created with actual "paint pours," where paint is poured onto a blank canvas and allowed to move freely over the surface when the canvas is tilted and moved in many directions. There is some artistic manipulation but this process is basically a semi-controlled-mess that gives surprising and appealing results.

Casart self-adhesive and removable Wave Murals can be easily installed individually or paired together and turned in any direction desired. They can also be used with our other designs within the Sea Life removable wallpaper series: Sea Spray Mural, Shells and Shell Fish designs to create a Sea-themed space. All can be customized for your color choices.

According to Casart Coverings' Owner and lead artist, Ashley Spencer, "This unique wallpaper design is not offered anywhere else or in a high-quality, self-adhesive, repositionable, removable and reusable wallcovering. Casart Coverings' wall coverings are known for their exceptional quality for commercial and residential use, and with designer appeal yet affordable price."

Casart Coverings' designs in the Sea Life Series are rendered in an up-to-date style, with state-of-the-art wallpaper technology and printing for practical and easy-to-install with self-adhesive wall décor. Part of the Design & Murals Category / Sea Life Collection (<https://www.casartcoverings.com/shop/casart-designs-murals/sea-life/wave-murals-sea-life-series/>), (<https://www.casartcoverings.com/product-category/casart-designs-murals/sea-life/>)

Sizes range from small 52" w x 72" h (7 ft h / 26 sq ft) to large size mural panels 104" w to 144" h (12 ft h / 104 sq ft).

Casart Coverings has also launched coordinating designs on furniture, home, office and lifestyle products through their Casart Society6 Accessories Shop: <https://society6.com/casart>
