

Chula Vista Painting Pros Catapults Into the Decade With the Launch of it's New Website

Chula Vista Painting Pros says future sight is 20/20 with launch of new website.

January 6, 2020 (FPRC) -- After proudly servicing the Chula Vista community with high quality painting services, Chula Vista Painting Pros has launched a website to usher in the new decade.

The new website features online forms, click to call buttons and an up-to-date mobile responsive design that emphasizes convenience for website visitors.

Owner of the company, Jay Martinez stated, “ We wanted a website that made it easy for our customers to find us, and communicate with us about their home improvement needs. I’m glad we were able to get a website that captured our values as a company but also met the needs of our clients.”

Chula Vista Painting Pros also expanded its online presence onto Facebook, Pinterest, and Instagram in order to keep in touch with clients and community.

The website design and social media strategy was led by SGV Web Consulting, a local SEO company.

Chula Vista Painting Pros has provided exceptional service at fair prices and is known as one of the premier house painters in Chula Vista and the surrounding communities. The website coincides with the growing company’s initiative to capitalize on the increasing number of community developments in the South Bay as well as the need for professional painting services.

Their services include exterior house painting, interior house painting, power washing, cabinet painting, fence painting and beyond.
