July 31, 2020 (FPRC) -- The much anticipated classic novel, The Godmother, is now available wherever fine books are sold. Author Melody Wolfe, whose critically acclaimed book 'From a Criminal Mind to the Mind of Christ' has earned her 4 out of 5 stars by reviewers on Amazon.com, is pleased to present this, her first novel, to readers.

'This work was a labor of love for me. While the events in this book are fictional, the characters are based on real men and women whose lives have inspired and encouraged me. I am confident that my fans will be pleased with my latest endeavor.'

The story takes place in Wolfe's hometown of Spryfield, Nova Scotia, and tells the tale of the original Sprytown Trio, a group of three childhood friends who have maintained their relationship with one another despite unrelenting challenges and persecution. Fusing a love story that is breath-taking along with a level of suspense that will leave you on the edge of your seat, it is certain that you will not want to stop reading once you start! Hollywood is already considering adapting Wolfe's novel into a major Motion Picture epic.

'I wrote this book with Hollywood in mind, and now that my dream is becoming a reality, my hope is that fans will want to see this story played out on the big screen.'

Wolfe was recently asked if there was any truth to the rumors of her upcoming marriage to one of the inspirations for her leading man in her book, she responded by saying, 'Even if there were a basis of truth among the rumors, I would be hesitant to respond without the blessing of the other person.'

Melody Wolfe makes her home in Halifax, Nova Scotia, where she was born and raised.

'I believe the love story is comparable to that of Jack and Rose in James Cameron's Titanic," admits Wolfe. 'My characters make the story great - their personalities and strength will capture the heart of readers worldwide.'
