

## **Positive Black Network (PBN) Website and App is Launched to Promote Positivity Among African Americans**

*The Aim of the Positive Black Network's Website and Apps mission is to promote and bring to the forefront the amazing accomplishments of African Americans around the world. There will be daily positive news and featured headline stories, photos, articles, interviews, reviews and more.*

November 5, 2020 (FPRC) -- Paul L. Garwood is a African American who tired of the negative portrayal of African Americans in the news media so much that he set out to discover the positive things that African Americans were doing in society. This led him to start on Facebook the Positive Black Network PBN business page and group. This then led to the development of the website Positive Black Network PBN which he founded and launched on April 2, 2018. On November 1st, 2020 the Positive Black Network (PBN) News app was launched.

Over the past couple of years, with no advertising, paid staff or funding, the Facebook page has gained thousands of followers, leading to the creation of this dedicated website, where stories can be accessed by topic and searched via keywords.

Positive Black Network is about good journalism and positive things. When much of the media is full of doom and gloom, instead Positive Black Network (PBN) is dedicated to quality reporting about what's going right.

Every time a positive story is published there is a bit of uplift for anyone who comes across it.

On the Website and App there will be daily positive news reported and featured headline stories, photos, articles, interviews, reviews and more.

Please help PBN continue to grow by joining our e-mail list, reaching out via our 'Contact Us' tab, downloading the app, spreading the word, sharing, and commenting. Let's promote Positivity together.
